RE: Submission of information Pursuant to FCC 54.313 Rules and Request for Confidential Treatment – ETC Annual Reports and Certifications WC Docket No. 1458

Dear Ms. Dortch:

In accordance with the annual reporting requirements of 47 C.F.R. §§54.313 and 54.422, Totah Communications, Inc. ("Totah"), Oklahoma, Study Area Code 432030, is submitting a completed FCC Form 481 to the Commission via its Electronic Comment Filing System (ECFS) in WC Docket No. 1458. Totah, by its authorized representative, hereby requests confidential treatment of two attachments to its FCC Form 481: (1) the five-year service quality improvement plan identified on Form 100, Line 112 and (2) the financial annual report identified on Form 3005, both of which were redacted in the ECFS submission. The request for confidential treatment of the five-year plan is being made pursuant to section 0.459 of the Commission's rules and Exemption 4 of the Freedom of Information Act (FOIA). The request for confidential treatment of the financial annual report is being made pursuant to the FCC's June 17, 2015 Protective Order in WC Docket No. 1458. These attachments contain competitively sensitive data that Totah maintains as confidential and does not normally make available to the public. Release of this information would have a substantial negative impact on the Company.

Totah is also transmitting the following information to the Commission in compliance with C.F.R. §§54.313 and 54.422:

- Submission to the Office of the Secretary, this cover letter and the Form 481 filing which includes the confidential information that is being requested to be withheld from public inspection. Confidential information has been designated in accordance with Confidentiality guidelines and the Protective Order.
- Two copies of the Form 481 filing in redacted form and an accompanying cover letter are also being provided with the confidential filing.
- Two copies of this cover letter and the Form 481 filing with the confidential information are also being delivered to Mr. Charles Tyler, Telecommunications Access Policy Division, Wireline Competition Bureau.

121 East College Street • Broken Arrow, OK 74012 • 918-298-1618

Redacted For Public Inspection

The confidential information has also been submitted to the Universal Service Administrative Company through its E-File system as an attachment to the FCC Form 481. Totah requests that the information contained in its five-year service quality improvement plan be withheld from public inspection because it contains competitively sensitive commercial and financial information that the Company keeps confidential. Public availability of this information would have a substantial negative impact on the Company. Totah offers the following information pursuant to section 0.459 of the Commission's rules and Exemption 4 of FOIA in support of this request:

(1) Identification of the specific information for which confidential treatment is sought:

Attachment to Line 112 of FCC Form 481 – Five-Year Service Quality Improvement Plan. Specifically, confidential treatment is sought for all information in the five-year plan related to the Company's future network plans and information concerning future services provided to customers.

(2) Identification of the Commission proceeding in which the information was submitted or a description of the circumstances giving rise to the submission:

The information was submitted in WC Docket Nos. 10-90 and 11-42 as an attachment to FCC Form 481- the Carrier Annual Reporting Data Collection Form. Section 100 of FCC Form 481 requires incumbent local exchange carriers receiving high cost support to attach a five-year service quality improvement plan, pursuant to 47 C.F.R. §§54.202(a)(1)(ii) and 54.313(a)(1).

(3) Explanation of the degree to which the information is commercial or financial, or contains a trade secret or is privileged:

The five-year service quality improvement plan contains information on the Company's future plans, number of customers served and other planning information that company does not make publicly available.

(4) Explanation of the degree to which the information concerns a service that is subject to competition:

Broadband is subject to increasing competition in the areas served by rural, rate-of-return incumbent local exchange carriers (RLECs). Virtually all RLECs face competition from one or more Internet service providers.

(5) Explanation of how disclosure of the information could result in substantial competitive harm:

Disclosure of the information contained in the five-year plan would provide competitors with detailed, granular information regarding the Company's strategic plans. This would provide competitors access to confidential information they could employ to develop their own plans a particular service area. This could cause competitive harm to the Company.

(6) Identification of any measures taken by the submitting party to prevent unauthorized disclosure:

The Company has continually treated information regarding its network and service plans as confidential and carefully controls the information to protect it from competitors.

(7) Identification of whether the information is available to the public and the extent of any previous disclosure of the information to third parties:

The redacted information in the five-year plan is not available to the public, and third party access is limited as described in (6) above.

(8) Justification of the period during which the submitting party asserts that material should not be available for public disclosure:

The Company requests that the extracted information be withheld from public inspection indefinitely. The five year planning period information would provide valuable information to competitors for several years beyond that period.

(9) Any other information that the party seeking confidential information treatment believes may be useful in assessing whether its request for confidentiality should be granted:

Exemption 4 of FOIA shields from public disclosure commercial or financial information obtained from a person that is privileged or confidential. Based on the responses provided above, the information in question satisfies this test.

Please contact me if you have any questions.

Sincerely,

Tim Morrissey
President

QUALITY OF SERVICE AND CUSTOMER PROTECTION PROCESS

(USAC DOCUMENT - 432030OK510.PDF)

TOTAH COMMUNICATIONS, INC.

QUALITY OF SERVICE & CUSTOMER PROTECTION PROCESSES

1. **Available Customer Service Representatives to Answer Phones** – All calls received by TOTAH COMMUNICATIONS, INC. during business hours are generally answered by the third ring. When the assigned customer representatives are unable to answer calls by the third ring, calls roll to our out sourced customer service help desk center.
2. **Provide After Hours Emergency Customer Service** – Calls are generally answered within 60 seconds. Call logs are reviewed daily by personnel. Customer service representatives have been given a list of questions by TOTAH COMMUNICATIONS, INC. to ask to assist them in resolving any issues. Unresolved issues are reviewed the following work day. Issues requiring immediate attention are sent to the TOTAH COMMUNICATIONS, INC. service technician on call, who works to resolve the matter as quickly as possible. If that technician is unable to resolve the problem, additional technicians are called. After-hours customer service is also available through our out sourced answering service 24/7.
3. **Provide a 24/7 Hour Internet Help Desk Service** – All calls are generally answered within 60 seconds. Call logs are reviewed daily by personnel with Managers available to review and address any issues.
4. **Give Customers Cut-off Warnings & Provide Bill Arrangement Opportunities** - Customers are given two months of missed payments before their service is cut off for non-payment of bill. Notification of the payment due date and the cut-off date are prominently displayed on bills as well as of the opportunity to make payment arrangements to avoid being cut-off. Customers in danger of losing service also receive an automated call from a customer service representative to remind them of the late payment. If a customer complains that notice was not given, they are directed to speak with a Manager who will work to resolve the matter and prevent it from occurring again. Account balance reports are printed monthly internally using the company's billing system.
5. **Ensure That All New Service Installation Orders Are Fulfilled Promptly** – All customers are contacted within 48 hours regarding scheduling the new service installation. If outside plant is already in place, we fill the order at the customers' earliest convenience; if outside plant is not in place, fill the order as soon as the weather permits.
6. **Minimize Customer Downtime for Services & Make Requested Changes Promptly** – Contact customers regarding all service requests the same day, with a goal of resolving all issues within 48 hours. Any unresolved issues will be resolved contingent upon the technician/customer coordination of access to the premises. Changes requiring key strokes are many times made within the same day as requested.
7. **Proactively Monitoring in Case of Major Service Outages** – Generally, Service technicians are made aware of outages affecting customers within an hour. It is the goal of TOTAH COMMUNICATIONS, INC. to resolve major outages within four hours or less. If an outage cannot be resolved within four hours, technicians will begin utilizing all resources, both from within and from without. Technicians establish and accomplish yearly training goals to be better equipped for managing all services.

CUSTOMER PRIVACY

Company Confidential Information Policy – TOTAH COMMUNICAITONS, INC. has a company policy in place that holds employees accountable for a breach of confidentiality concerning customer data and company information. The policy states: “You are reminded that revealing any type of confidential information to unauthorized persons or tampering with or altering company records and/or property is a violation of trust that can result in disciplinary action up to and including discharge.”

Company CPNI Policy – TOTAH COMMUNICATIONS, INC. also has a Customer Proprietary Network Information (CPNI) policy in place that ensures employee compliance with the FCC’s CPNI guidelines. Outlined within the policy is a detailed description of CPNI as well as both acceptable and unacceptable CPNI practices. Employees are required to sign waivers stating they understand and agree to comply with the policy and acknowledge that “failure to protect this information result in disciplinary action up to and including discharge for the responsible employee.” As a part of this policy, TOTAH COMMUNICAITONS, INC. has designated a Compliance Officer responsible for training employees, monitoring CPNI related activities, and reporting breaches.

Dusty Harper dusty@totelcsi.com Engineering Supervisor	918 535 2208
Keith Watson kewatson@totelcsi.com Executive VP & Controller	918 535 2208

Purpose

The primary purpose of this Emergency Response Plan (the “Plan”) is to set forth general guidelines, policies and procedures to be taken in case of an emergency as defined below to enable Totah Communications, Inc. (the “Company”) to secure expeditious restoral of service first to local emergency management agencies and then to Company customers in the event of such emergency.

Scope

This Plan, is compliance with Kansas Corporation Commission (KCC) Rules, shall be followed to the extent possible in the event of an emergency which, for the purposes of this Plan, shall be defined as: (1) service interruptions of such magnitude that conditions affect the entire Company system or a major division thereof; or (2) a situation which, in the judgment of Company management, may cause a high degree of public interest or concern. The conditions which would require use of these procedures are collectively referred to herein as “emergency,” “emergency conditions” or “emergency situation.”

This Plan recognizes that each emergency will present challenges specific to the situation, but the same general recovery steps should be followed during each emergency. An Emergency Response Team will be established during each emergency to direct the recovery process.

Emergency Response Team

In the event of an emergency, an Emergency Response Team will be established. An Emergency Response Team Coordinator will be designated, and shall be the highest-ranking Company management employee available. Members of the Emergency Response Team will be selected by the Coordinator based upon an assessment of the critical skills and knowledge necessary as they relate to the emergency.

FUNCTIONS OF THE EMERGENCY RESPONSE TEAM

The functions of the Emergency Response Team shall include the following:

I. GENERAL FUNCTIONS

- (A) Make an initial assessment of the extent of the service interruption;
- (B) Determine if the service interruption can be restored by the use of in-house personnel only or whether outside resources will be required;
- (C) Provide priority consideration to restoration of service, where feasible, to emergency services (911/E911 services, hospitals, law enforcement and fire fighting entities);
- (D) Make immediate assessments of the restoration of service;
- (E) Make a conclusory assessment of the restoration of service.

II. SPECIFIC FUNCTIONS

(A) Communications

The Emergency Response Team Coordinator will, as soon as is practical and feasible, insure that contact is made with the KCC through the Consumer Services Division at (800) 662-0027 or (785) 271-3140. Such notification will, where possible consist of the following information and will be provided as soon as information is available:

- (1) Initial Contact
 - a. Notify KCC of outage;
 - b. Notify KCC of cause of the outage;
 - c. Notify KCC of the area affected; and,
 - d. Notify KCC of the estimated time for repair.
- (2) Intermediate Contact
 - a. Provide status reports as deemed necessary by the Emergency Response Team Coordinator or as requested by the KCC.
- (3) Conclusory Contact
 - a. Final contact advising the KCC of restoral of service.

In addition to the communication responsibilities listed above, the Emergency Response Team Coordinator will insure that contact is made with all appropriate and necessary employees in the affected area and instruct them where to report for purposes of expediting restoration of service.

(B) Damage Assessment

The Emergency Response Team will have the duty of assessing the damage to all Company buildings and outside plant facilities. The Team will also be in charge of determining power outages. The Coordinator will be responsible for the coordination of restoration of power either commercially or with the use of stand-by generators, and also for the coordination of outside contractors which may be utilized by the Company if and when necessary for the restoration of service. The Coordinator will also maintain a list of the contact names and phone numbers where backup generators may be available.

(C) Priority of Restoration

The Emergency Response Team will be responsible for giving priority for restoration of service to the local emergency management agencies (i.e. Police, Fire, Hospital and 911 Center). The Emergency Response Team will restore access to toll service in the event of a toll outage. The Coordinator will also cooperate with emergency agencies for the clearing downed lines and poles from roadways. After service has been restored to all local emergency management agency locations, this team will begin the task of restoring service to all Company customers affected by the emergency.

III. COMPANY EMPLOYEES

The Company believes it is the responsibility of each employee that is a member of the Emergency Response Team to secure his/her family first and then report to the Company. Employees deemed critical to the restoration process will be directed to report to the location requiring their particular skills and expertise.

Dear Chief Baker:

Totah Communications, Inc. is a rural independent telephone company providing service to approximately 1,400 customers and 750 square miles of in Osage, Washington, Nowata, and Rogers counties of Northeast Oklahoma. Included in our exchanges are customers who may be members of the Cherokee Nation and the Delaware Tribe. Totah offers landline phone, DSL, long distance, Conference Bridging, and access to toll free services as well as opportunities to bundle these services together.

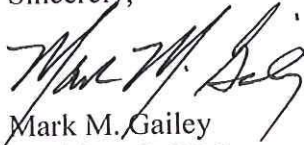

We currently provide services to several local community anchor institutions. Many of these, receive a free or discounted rate for high speed internet through federal and/or state assistance programs. This partnership allows the institutions the ability to have connectivity worldwide. Totah believes that anchor institutions are an integral part of the community and provide countless benefits and gathering places to area residents. Totah has the ability to provide service upon reasonable request to anyone in its service area including Tribal community anchor institutions. As you may know, we currently serve the Cherokee Casino in Ramona and will serve the medical clinic in Ochelata that is now under construction.

We are currently deploying fiber in order to increase the broadband speeds and reliability of its services. Through various partnerships and its position in both Kansas and Oklahoma, Totah has the ability to offer ever increasing internet speeds at competitive prices. These speeds allow customers to have access to services such as video streaming, telemedicine, offsite workplaces and remote study opportunities for education. Services such as these allow for the continued growth of connectivity in a rural landscape. This enables customers the ability to be connected to retail business and services throughout the country including those of urban areas.

Totah Communications, Inc also provides Lifeline and Link-Up service in areas it serves for customers that qualify under state and federal guidelines. Totah also offers toll limitation service which helps households save money by blocking toll calls from being made, thus preventing costly long distance bills.

As always, I welcome the opportunity to assist our current and future customers where possible. Please feel free to contact me with any questions that you may have at 918-535-2208 or toll free 888-580-2208.

VOICE SERVICES RATE COMPARABILITY
(USAC DOCUMENT - 432030OK1010)

Voice Services Rate Comparability

Totah Communications, Inc. – Oklahoma

In compliance with the 54.313 Rules, Totah Communications, Inc. – Oklahoma must certify that its current rate for fixed voice services is no more than two standard deviations above the national average urban rate for voice service.

According to the 2015 Urban Rate Survey conducted by the FCC Wireline Competition Bureau, the weighted average unlimited local rate is \$21.22. USAC Guidelines (Page 56) states that two standard deviations above the \$21.22 rate would be \$47.48.

The rates shown on the Voice Pricing Form (0700) are below \$47.48. Consequently, Totah Communications, Inc. – Oklahoma meets the above mentioned requirement.
